

**Bio:**

I currently work for Carr, Riggs, & Ingram, LLC, which is ranked among the top-25 largest public accounting firms in the U.S., where I have worked as an auditor for the past five years. Our Brevard County office is located in Viera and we provide a wealth of audit, tax, and accounting services to many members of the local and surrounding communities. In my current role as a Supervisor, I primarily work with governmental agencies, local municipalities, not-for-profit agencies, manufacturing and construction companies providing an array of audit and financial preparation services. What is interesting to know about me is that this is my second career. Prior to becoming an auditor, I spent over 19 years in collegiate athletics at various colleges and universities in the southeast, mainly in Florida. The last nine years of my collegiate professional career, I served as an Assistant Athletic Director for Communications and External Operations for a large private university in South Florida. In that role, I was in charge of all athletic media communications, facilities management and event operations for nearly 300 athletic events/competitions annually. I am also a former collegiate athlete.

**Why I would like to serve:**

My wife and I moved to Melbourne about five years ago to raise our kids and be close to some of my wife's family. Since moving here, we have become embedded in the Brevard Community through our family, friends, work connections and our children's participation in school, sports and recreational activities. In addition, two of my kids are currently participating in the Space Coast United recreational program and my oldest just tried out and made one of the competitive teams and we have officially registered for the 2024 competitive season. (Can't wait!!!). I believe it is important as parents, that we should not only provide our children with opportunities that enrich their lives, but demonstrate servant leadership to help develop strong character, growth and maturity. My kids are developing a strong interest in the sport of soccer and as a potential member of the board, I want to foster that enjoyment they are getting from the sport and help promote and develop Space United Soccer Club as to enhance the opportunities for my kids as well as other kids within our community. With my very diverse background and experience, I believe I can provide some unique a unique prospective for the Club's continued growth and I look forward to the potential opportunity.
